## EDUCATION

**Harris School of Public Policy, The University of Chicago** — **Chicago, Illinois**
Master of Science in Computational Analysis and Public Policy — May 2026 (Expected)

**University of Nebraska-Lincoln** — **Lincoln, Nebraska**
Bachelor of Journalism with distinction — May 2021

## EXPERIENCE

**UCHICAGO JUSTICE PROJECT** — **Chicago, Illinois**
*Research Assistant* — January 2025 - Present
- Answer research questions pertaining to homicides in Chicago since 1800s by collaborating with X number of senior data scientists and fellow research assistants
- Write code using R/RStudio that correctly identifies increases in deaths in 100+ hexagonal geographic areas to evaluate factors that maybe have contributed to increase in Chicago neighborhood killings

**FLATWATER FREE PRESS** — **Omaha, Nebraska**
*Elections Guide Editor* — April 2024 - August 2024
- Developed and administered an election candidate survey with a series of 5 point Likert scale questions regarding stances on polarizing issues in Nebraska; oversaw 60% return rate from the questionnaire to produce a voter guide for Nebraskans
- Created pivot tables to summarize the data for 30+ different elections and respective candidates and used the findings to write 400-word paragraphs for each race to promote understanding of critical issues before the November 2024 election

**SAN ANTONIO EXPRESS-NEWS** — **San Antonio, Texas**
*Data Reporter* — July 2021 - January 2024
- Produced quick-turn data stories 1-3 times each month by analyzing requested or public datasets with thousands of rows via R/RStudio to determine the data's cleanliness and evaluate how to most accurately answer readers' questions
- Visualized and identified trends and outliers in maps and graphs via Datawrapper and Flourish programs to find people represented in the data so their story can be told and the community problem could be understood
- Conducted analysis for longterm and investigative articles by defining the problem facing the community and developing a list of questions to ask of the data so the investigation could serve a clear purpose

**THE NEW YORK TIMES** — **Remote**
*Freelancer* — March 2020 - April 2021
- Monitored the spread of COVID-19 among incarcerated people by manually collecting data from the nations 2,000+ state, federal and local correctional facilities and tracking changes in a Google spreadsheet to inform the public about outbreaks
- Developed relationships with records custodians and filing records requests at least once a week to ensure data was current and up to date so corresponding graphics could inform people of the latest information regarding COVID-19 in facilities
- Interviewed incarcerated people, family members and advocates to learn about the stories represented in the data and then publish articles about hardships of  coronavirus outbreak in all U.S. prison facilities

**THE SALT LAKE TRIBUNE** — **Salt Lake City, Utah**
*Dow Jones News Fund Data Reporter* — May 2020 - August 2020
- Assisted newsroom coverage of Black Lives Matter protests by interviewing attendees and coordinating coverage with photographers, editors and reporters to effectively cover a historical event as it occurs
- Cleaned and analyzed hundreds of rows of calls for service data in R/RStudio to help more than 30,000 readers understand how police operations are executed in Salt Lake City

## COMMUNITY INVOLVEMENT

**LAUNCH LEADERSHIP** — **Lincoln, Nebraska**
*Evaluations Coordinator & Volunteer Staffer* — January 2024 - Present
- Volunteer to gather and study feedback to readily inform 50+ staff members about immediate, actionable changes and present nonprofit volunteers with quantifiable measurements of students' enjoyment during a service
- Develop leadership skills among high school and middle school students by executing 3-7 activities and leading discussions in every day of a non-profit service

**SAN ANTONIO EXPRESS-NEWS TEEN TEAMS** — **San Antonio, Texas**
*Curriculum Leader & Program Coordinator* — August 2022 - January 2024
- Trained 20+ student journalists in biweekly lesson plans for 9 month journalism program aimed to develop skills in reporting, interviewing, and writing
- Organized 10 speaker sessions and developed reporting abilities through ongoing exercises and discussions
